

# YOUTH REVIVE CORE VALUES

**Community** – We believe that a student’s community should contribute to their character and civic education and foster opportunities for them to rebuild, reconnect, and revitalize communities.

**Character** – We believe that character education is an essential component of a student's success, both for the transformation of their community and society.

**Civics** - We believe that through action civics, we can close the “civic empowerment gap” and students can address the disparities in civic knowledge, motivation, skills, and deposition between low-income minority youth and wealthier white youth.

**Church** - We believe the christian church is a staple within the community and should seek programs such as Ignite Me to empower students through the greatest mission field available - a school campus.

**Collaboration** – We believe that collaboration with public, private, and government organizations is essential to equipping and propelling students to become the agents of change in their school community, local community, and the broader world.
